Our Learning Centre (LC) is our pride and joy! It is a unique and a very distinctive feature of BIS! We are proud to be one of the most inclusive schools in the country with a robust Special Education Needs section. The Learning Centre was established in 2003. We offer an inclusive education along a continuum of partial to full general classroom placement depending on the needs of each student. The school values each learner and provides opportunities for him/her to learn and grow. In all our endeavors, the focus is on the individual student and we provide the services that would benefit him/her. We aim to offer the students of the LC as inclusive a learning experience as possible. We believe that each student is different and therefore learns in a way that suits him/her the best. ## Class teacher, LC Head of Department (HOD) & LC Coordinator
